RINKEE KUSHWAHA

Full Stack Developer | React.js & Node.js

Noida, India | 8303249051 | Kushwaharinki22@gmail.com | LinkedIn | GitHub

Portfolio: rinkee-kushwaha-portfolio.vercel.app

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building scalable web applications, most recently in healthcare technology at MedCab. Skilled in React.js/TypeScript admin panels, Node.js/Express REST APIs, MySQL design, and Laravel/PHP platforms. Proven track record delivering CRM/admin modules, third-party API and AI-service integrations, authentication and security systems, and accessible, responsive UIs. Strong production debugger focused on clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, Python
Frontend: React.js, Vue.js, Next.js, HTML5, CSS3, Bootstrap 5, Tailwind CSS, Material UI, Redux, Vite
Backend: Node.js, Express.js, Laravel 11 (Blade), GraphQL, REST APIs, JWT Authentication
Database: MySQL, MongoDB, Firebase, MySQL2 connection pooling
Tools: Axios, react-hook-form, Yup/Zod, DataTables, Chart.js, FullCalendar, Razorpay API, Postman, Git/GitHub, CI/CD
Other: API Integration & Debugging, CRM/Admin Panel Development, Role & Permission Management, Responsive UI/UX, WCAG 2.1 Accessibility

PROFESSIONAL EXPERIENCE

Full Stack Developer | MedCab
January 2026 – September 2026

- Built a healthcare emergency-services platform (ambulance dispatch, air ambulance, home care, radiology/pathology) across a Node.js/Express/TypeScript backend, React/Vite admin panel, and Laravel/Bootstrap 5 website.
- Delivered the Radiology/Pathology booking module end-to-end: MySQL schema, Express REST APIs (service/controller/router), React admin pages, and Laravel Blade integration covering booking to report download.
- Designed admin login security: conditional OTP, IP/device blocking with attempt-threshold and cooldown, device fingerprinting, reCAPTCHA v2, and Super Admin unblock controls.
- Integrated a third-party AI voice platform via webhooks to auto-create bookings from call data, with a missed-call callback dashboard (SLA tracking) and automated booking-confirmation calling.
- Built CRM features: color-coded agent performance dashboard, structured driver-reassignment audit logging, and DataTables reports with export.
- Resolved live production issues on medcab.in (MySQL pool errors, environment-config ordering bugs, PHP class-naming mismatches); improved UI/UX with a token-based CSS design system and reduced-motion support.

React.js Developer | Fabrico Cleaning Solutions Pvt. Ltd.
July 2023 – December 2025

- Architected enterprise web apps with React.js, Vue.js, and Node.js serving **1,000+** active users at **99.9% uptime**; built pixel-perfect, WCAG 2.1 AA-compliant UIs from Figma.
- Boosted performance by **30%** via lazy loading, code splitting, React.memo, and optimized state management; cut API response time by **40%** through query optimization on JWT-secured Express APIs.
- Led e-commerce features (dynamic catalogs, cart, secure payments); delivered in Agile sprints with a **95%** on-time delivery rate.

React Developer & UI/UX Designer | Digital Brain Media
August 2021 – July 2023

- Engineered SaaS apps in React.js with Redux for **10,000+** concurrent users; cut load time by **45%** using code splitting, React.memo, and custom hooks.
- Built a **50+** component reusable library (**35%** faster development); achieved **85%** test coverage with Jest and React Testing Library, reducing production bugs by **60%**.
- Integrated third-party APIs (Stripe, Google Maps, SendGrid) with RESTful endpoints, error handling, and logging.

Frontend Developer | Surelocal Technologies
March 2020 – August 2021

- Developed responsive, mobile-first interfaces (HTML5, CSS3, ES6+, Bootstrap), integrated REST APIs via Axios/Fetch, and ensured WCAG 2.1 accessibility with semantic HTML and ARIA.

KEY PROJECTS

- **Radiology & Pathology Booking Module** | React.js, TypeScript, Node.js, Express, MySQL, Laravel – fully dynamic booking lifecycle from search to report download.
- **AI Voice-Call Booking Integration** | Node.js, TypeScript, MySQL, React – webhook-driven, race-condition-safe booking creation with SLA callback dashboard.
- **Admin Panel Login Security System** | Node.js, JWT, OTP, FingerprintJS, reCAPTCHA v2 – layered protection with Super Admin controls.
- **E-Commerce Platform** | React.js, Redux, Node.js, MySQL, Razorpay – advanced filtering, dynamic cart, multi-step checkout, real-time inventory.
- **Admin Analytics Dashboard** | Vue.js, Chart.js, Node.js, MongoDB, Redis – real-time charts, cached APIs, role-based access, PDF/Excel export.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering | M.G. Institute of Management & Technology
